

You're probably tired of having to pull gravel out of your son or daughter's knee. My law just might prevent that. Instead of gravel driveways, everybody must have blacktop or pavement.

If my law is passed it might prevent kids from getting infections from pebbles that you can't get out of their knee. This law would also prevent parents from paying doctor bills that are over expensive.

This law might also prevent parents from having to take off from work. Kids might have to miss school to go to the doctor's office. They would have to go to the doctor's office to get the infection taken care of.

I hope you will support my law. It's for your own child's sake for safety and health. This law might also save you money and get you a bigger paycheck.
